Chocochino Felt Chair

Chocochino Felt is a unique sustainable tub chair which gives “waste” a second life. The self-supporting seat shell is made from recycled PET (Polythylene Terephthalate) bottles. The choice to use this innovative material is not only good for the environment, but it also looks and feels great. An additional positive feature is its sound absorbing quality.

Bea Den

Our Bea collection utilises simple clean lines and deep soft cushions to create an extremely comfortable and homely range of dens. The pitched roof gives Bea height adding to the office landscape. The dens are highly customisable with options on power, lighting, upholstery and table tops. Simple to install, the Bill dens are plug and play. They are easily relocated, so they move when you move. The addition of castors allows the dens to be mobile, giving you even more flexibility within your space. The dens can be made more private with the addition of the glass door front. Bea is available with a flat roof option.

Origin Bench Desks

Origin is a universal desking system fit for every contemporary office, with the perfect combination of classic and modern and the choice of three distinctive styles of legs, sliding top and manual height adjustment options.

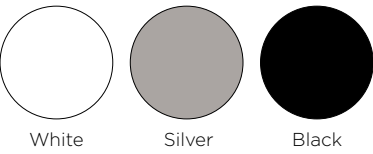

Features & Options

- Floating top gives a modern and minimalistic design
- Available in 1200-1800mm wide desks. Single and double sided available
- Complete flexibility when increasing or reducing the number of people at the bench, due to the inset leg and unobstructed leg space
- Integrated cable management tray which neatly houses power cables
- Optional sliding top gives instant access to a large capacity cable tray
- Origin desks comply with European office furniture standard (UNI EN - 527/1)
- Fabric or metal framed screens are available

Features & Options

- Frameless sound absorbing wall tiles
- Noise reduction co-efficient (NRC) of 0.55
- A variety of fabrics available including quilted and textured
- Can be manufactured to any shape or size allowing you full adaptability
- Wall and ceiling mounting available

See page 6 for ERA fabric options

In-Space Team

In-Space Team provides a flexible collaboration space to meet and connect with colleagues. Integrated communication and media connectivity encourage group collaboration. (Screen not included).

Features & Options

- The fabric screens are 55mm thick and have been acoustically tested and rated at 30dB noise reduction
- Panels can be fitted with a range of lighting and power options to enhance working areas
- Screens can be manufactured to any shape and size giving complete flexibility

A Collaboration screens

Includes a desktop 1600 wide x 1100 deep

In-Space Work Booths

Privacy and spaces for focused work are in demand more than ever before.

The In-Space work booth provides a perfect escape from distractions in the office. The high screens act as a visual barrier to avoid interruptions, and the acoustic properties absorb and reduce sound, creating a productive short term working space.

Features & Options

- The fabric screens are 55mm thick and have been acoustically tested and rated at 30dB noise reduction
- Panels can be fitted with a range of lighting and power options to enhance working areas
- Screens can be manufactured to any shape and size giving complete flexibility

Interactive Whiteboards

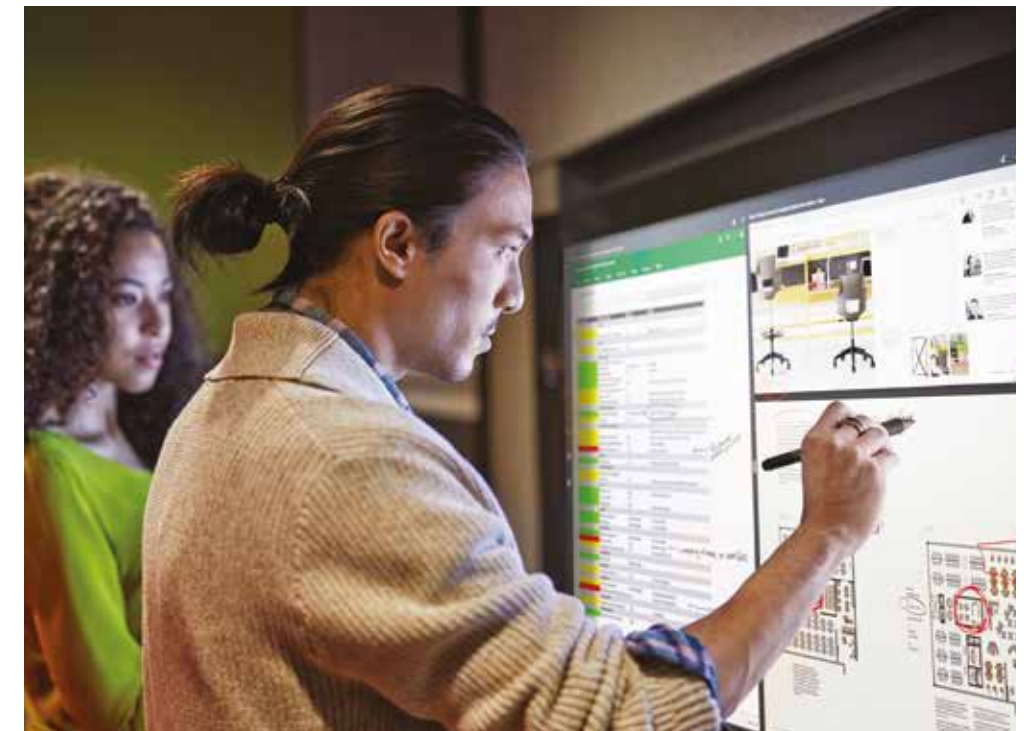

Touchscreens and Interactive displays enable real-time collaboration and encourage creativity within a break out, meeting or boardroom environment. A touch screen gives a picture-perfect 4K presentation of information enabling you to seamlessly integrate with Windows or Mac and navigate the content on a large scale tablet.

By integrating people,
place and technology we
can create the optimum
environment for creativity!

“ 75% of workers feel that their collaborative spaces aren't helping them to be creative ”

Steelcase Creativity & Future of Work Survey, 2017

Interactive displays take collaboration to the next level; brainstorming, creating new content, sharing screens wirelessly, cloud access and embedded web browser - all possible from the start screen.

A great tool for collaborative work and keeping everyone engaged whilst creating innovative solutions.

BenQ Touch Screens from **only £57 per month***

Interactive whiteboards available from **only £105 per month***

*Finance taken over 3 years

Video Conferencing

A Video Conferencing solution can integrate seamlessly into any workspace, and can quickly provide a range of benefits. From instantly being able to speak and see colleagues regardless of location, to sharing information digitally with offices around the county or even around the world from your own screen. Communication is improved, and decisions can be made without delay.

In the conference room, the Lifesize® Phone™ HD brings all of the essential conferencing functions right to the intuitive touchscreen interface. Share your screen, launch calls, add users from the integrated directory and control the video pan/tilt/zoom right from the phone. It's a meeting experience like no other.

6/8 person video conferencing solutions available from **only £142 per month***

*Finance taken over 3 years

ClickShare

Plug into collaboration, reliability and flexibility. ClickShare technology encourages employees to work together, fostering ideas and contributing to something great. Information sharing is easy - with one click of a button, multiple users can share what's on their screen with the rest of the team.

Ideas and projects can grow quickly as no time is wasted trying to connect devices

to various cables and screens. Regardless of device type; from laptops to tablets and iPhones', nothing is off limits.

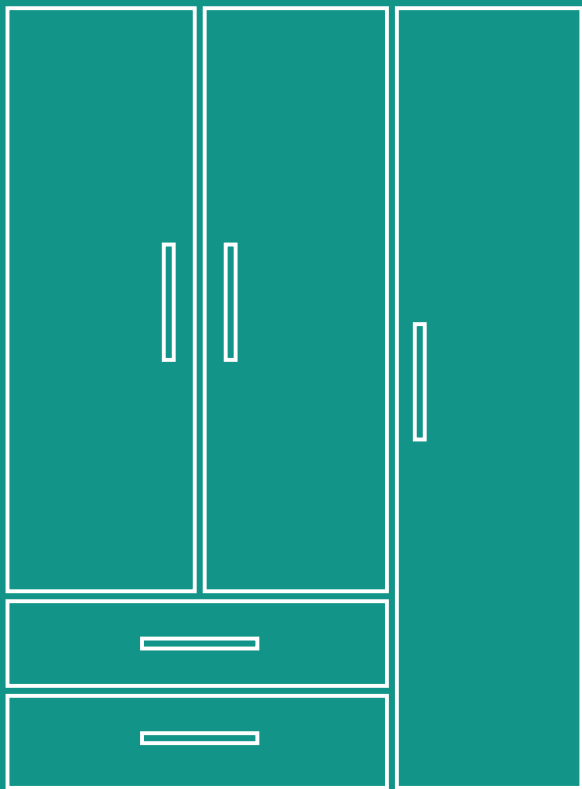

ClickShare meeting technology available from **only £39 per month***

Storage Wall

A floor to ceiling storage wall that maximises the use of your floor to ceiling space, without the complexity or installation costs of built-in furniture. Standard components are customised to fit into any space available, achieving a fully bespoke result.

Standard Features

- Storage Wall is available in heights from 2330mm to 2905mm, in 25mm increments (with additional adjustment to ensure precise fit)
- Available in veneer, high gloss lacquer and MFC
- Storage Wall is 540mm deep and available with an extensive selection of internal fittings

MFC finishes

Lockers

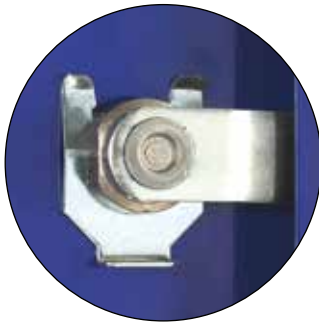

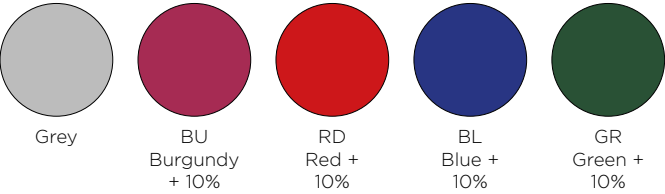

Lockers and cupboards are designed and manufactured to a high specification to meet any personal storage requirements. They are built for a long efficient working life in factories, hospitals, schools, colleges, retail outlets - in fact anywhere needing tough, reliable and aesthetic storage. Their modular design makes these lockers and cupboards extremely adaptable and cost effective. Units can be specified from a wide range with a choice of locks, doors, colours and accessories.

Door Colour Options

All lockers are priced with a light grey carcass and light grey door. For all other door colours add 10% to price.

Colours

Locking

Cover Plate

Standard Features

- Robust Design
- All doors have an all-round reinforcing edge, spot-welded at each corner to enhance strength and rigidity.
- A welded vertical channel section stiffens the door for protection against impact damage.
- Steel three-knuckle hinges are welded to the door and riveted to the frame to give added strength and allow for easy replacement of damaged doors.
- Complying with BS 4680, a close fit between the door and the frame of less than 2mm protects against leverage in attempted forced entry.
- Colours are applied electro-statically as an epoxy-polyester powder coat, then baked to provide a high quality, durable finish.
- Features in-frame locking through the door with a hooked cam engaging into the frame. This provides extra security by significantly increasing resistance to forced entry.
- Anti-theft shelf. The design of the intermediate shelf prevents access to compartments above and below an open door.
- The lock cover plate and handle provides recesses to accept compartment numbering or identification.

It is essential that shelving exceeding a height to depth ratio of 4:1 to the top loaded shelf is adequately secured to the floor or wall: fixings available, please ask.

Open & Clad Shelving

Open and Clad shelving has single skin uprights. This offers a cost-effective solution to everyday storage as well as being a quick and easy system to assemble. A wide range of accessories are available. All bays come as a selfassembly kit complete with assembly instructions. Shelves carry up to 70kg uniformly distributed load. Components are finished in Stormor Grey. Additional upright colours are available. Shelves and accessories can be easily adjusted - giving total versatility when storage requirements change. (25mm slot pitch)
